Rena Tobey - renaplays@yahoo.com, 202-352-6370

To Do List

Carolyn - talk to Pizzadilli

Julie - talk to Wawa, research plastic v. shape

Ezra - get video of singlestream recycling, find national contact and ask re: our reuse plan of action, bring list of cities/counties to next meeting, obtain location for next meeting

Chris - research more on the hazardous waste collection

Rena - put together information on why to recycle

Committee Goals

1. Re-Use Campaign (manufacturer > distributor > store > person){ person < store < distributor < manufacturer)

A. Get national to develop a re-use plan of action (maybe with Clorox Greenworks). Also potential for doing something like this locally.

B. Potentially do this locally. Start by contacting Pizzadilli Winery, also potentially try Dogfish Head brewery

2. Education Campaign -

Create a website guide on Sierra Club of Delaware's website along with a screenshot flyer (to give to realtors etc)

-Why should you recycle? (Recycling, why plastic bottles are bad, etc)

-How to recycling (styrofoam dropoff location, CFLs to Home Depot, how to sign up for curbside in your community, freecycle, etc).

-Guide for businesses to recycling and purchasing recycled goods / biodegradable products.

3. State legislative action-

Get statewide recycling

Increase accessibility/frequency of hazardous waste disposal opportunities

4. Events

Next meeting 9/21

Sierra Connection program in January in Dover

5. Transparency

Does everything get recycled that people attempt to recycle? (UD, etc).

How can we get DSWA et al. to do a better job verifying they recycle everything and help change the perception many have that their recycled goods end up in the landfill.
